

Y-intercept of $y=2-4x$		Gradient of (4,6) and (5,7)		Eqn where $m=5$ and $c=4$	
-------------------------	--	-----------------------------	--	---------------------------	--

Gradient of $y=2x+3$		Eqn where $m=0.5$ and $c=-4$	
----------------------	--	------------------------------	--

Gradient of (4,8) and (3,13)		Gradient of $2y=4x+8$		Y-intercept of $6x+3y=9$	
------------------------------	--	-----------------------	--	--------------------------	--

Y-intercept of $x+y=5$		Gradient of $y=-0.5-1.5x$	
------------------------	--	---------------------------	--

Y-intercept of $y=2x+4$		Gradient of $6x+3y=9$		Y-intercept of $2y=4x+8$	
-------------------------	--	-----------------------	--	--------------------------	--

Eqn where $m=-2$ and $c=1$		Gradient of (4,8) and (4,8)	
----------------------------	--	-----------------------------	--

Gradient of $y=3x-4$		Gradient of (3,5) and (4,7)		Gradient of (5,9) and (7,13)	
----------------------	--	-----------------------------	--	------------------------------	--
