

# Gradient and y-int

Name: \_\_\_\_\_

Y-intercept of $y=2-4x$		Gradient of (4,6) and (5,7)		Eqn where $m=5$ and $c=4$		Gradient of $y=2x+3$	
-------------------------	--	-----------------------------	--	---------------------------	--	----------------------	--

Eqn where $m=0.5$ and $c=-4$		Gradient of (4,8) and (3,13)		Gradient of $2y=4x+8$	
------------------------------	--	------------------------------	--	-----------------------	--

Y-intercept of $6x+3y=9$		Y-intercept of $x+y=5$		Gradient of $y=-0.5-1.5x$		Y-intercept of $y=2x+4$	
--------------------------	--	------------------------	--	---------------------------	--	-------------------------	--

Gradient of $6x+3y=9$		Y-intercept of $2y=4x+8$		Eqn where $m=-2$ and $c=1$	
-----------------------	--	--------------------------	--	----------------------------	--

Gradient of (4,8) and (4,8)		Gradient of $y=3x-4$		Gradient of (3,5) and (4,7)		Gradient of (5,9) and (7,13)	
-----------------------------	--	----------------------	--	-----------------------------	--	------------------------------	--
