

Sand and sugar	
-------------------	--

Contains different types of atoms, elements or compounds not all chemically joined		H_2O (water)	
--	--	-------------------	--

N_2 (nitrogen)	
---------------------	--

CO_2 (carbon dioxide)		Oxygen (O_2)	
-------------------------------	--	---------------------	--

Contains more than one type of atom, chemically joined together	
---	--

Contains only one type of atom		Salt and water	
--------------------------------------	--	-------------------	--
