

The sweets looked delicious		I'll huff and I'll puff	
-----------------------------------	--	-------------------------------	--

I'll blow your house down		It's off to work we go		I feel a bit sleepy	
------------------------------	--	------------------------------	--	------------------------	--

You're an ugly bird		Let down your hair	
------------------------	--	-----------------------	--

Run, run as fast as you can		Mirror Mirror		Fee Fi Fo Fum	
-----------------------------------	--	--------------------------------	--	------------------	--

Trip trap, trip trap		She broke the chair!	
-------------------------	--	-------------------------	--

The clock struck midnight.		What big eyes you have		You shall go to the ball	
----------------------------------	--	------------------------------	--	--------------------------------	--
