

I'll huff and I'll puff		She broke the chair!	
-------------------------------	--	-------------------------	--

Trip trap, trip trap		The sweets looked delicious		I'll blow your house down	
-------------------------	--	-----------------------------------	--	------------------------------	--

You shall go to the ball		What big eyes you have	
--------------------------------	--	------------------------------	--

You're an ugly bird		It's off to work we go		Mirror Mirror	
------------------------	--	------------------------------	--	--------------------------------	--

Fee Fi Fo Fum		Let down your hair	
------------------	--	-----------------------	--

I feel a bit sleepy		The clock struck midnight.		Run, run as fast as you can	
------------------------	--	----------------------------------	--	-----------------------------------	--
